Each building will have its own secured vehicle access via a remote-controlled gate. The rear part of the building, including the parking area, will be monitored by video surveillance 24/7, ensuring maximum privacy regarding entry and exit, as well as the security of vehicles in the parking lot.

The pool measures 5.70m x 14.90m, totaling 85m², making it the largest pool in the residential complex in the area. A sunbathing area with loungers and lounge furniture will be provided along the entire length of the pool. Additionally, a "cabin" by the pool is planned, which will be of a modular type, equipped with a summer kitchen, barbecue, and a large dining table for communal gatherings. The pool, as well as all equipment and amenities, will be exclusively for residents.

The planned start of construction is March 2026, with completion expected in September 2027.

We are accepting reservations.
