The house consists of a reinforced concrete basement with a net area of 99 m², which has its own entrance and functions as an apartment with 3 bedrooms and a bathroom – fully furnished and move-in ready.

The ground floor and upper floor have a total net area of 204 m² and only need to be furnished and equipped with lighting. The ground floor features a kitchen, dining room, living room, 3 bedrooms, laundry room, storage, terrace, bathroom, and WC. On the upper floor, there is one bedroom, a bathroom, and a study.
